pleted, and be accompanied by the usual granzanies required by law. The name of the establishment in which the work is to be executed must be fluted.

The details of the design and arraingement of the machinery will be left with the party whose proposition may be accepted as combining the present number of advantages, keeping in view simplicity of construction, readiness of access for adjustment when in operation, and not being subject to derrangement in the working party; it being the object of the department to obtain the most speed and power with the most combinion consumption of ford, and the greatest stowage of coal which the space available for that purpose will admit.

The boilers to be of iron, with telescopic amoke pipe, which must be placed at the greatest practicable datance from the mainnast; the propeller, with the commotions for holating, to be of composition; the propoller, with the commotions for holating, to be of composition; the machinery be holisting, for pumps, apparatus for vonitating, and appartenances of all kinds necessary for the perfect working of the whole, to be of the most approved kinds. The coal-bunkers, shaft passage, two silwart-hips iron bulkheads, a distilling apparatus for treeh water from which can be made not less than 1,000 gallons per day; all the tools and duplicate pieces mecessary and astisfactory for an efficient oraling steam slip-dwar must be included in the proposition, and a list of them must be furnished.

The wood and carponner work (except the boring out the deadwood for the shaft) necessary to adapt the vessel for the reception of the machinery, boilers, and appendages, will be provided at the expense of the Navy Department, and it will permit the use of such facilities as it may have for holisting the lessy machinery on board.

For the accommodation of the entire steam machinery and the fuel, there will be allowed in the body of the shape the entire space, under the borth dock, commencing at 17% feet abaft the painman, and thence extending forward a distance

forward and the after stern post will be 7 lost; the department load water line to the top of the keel under the propeller will be 16% feet.

Steam-engine manufacturers who desire to hid can obtain a copy of the section of the vewel upon making application to the department. The proposal must be accompanied by full specifications and general drawings, having the position of the centre of gravity of the machinery, boilers, &c., marked on them; giving also the especity of the steem cylinders and area of foot and delivery valves, and of air pump, and outboard delivering valves, space for assum above the water line in boilers, the fire and grate surface; also the diameter, pitch, surface, and kind of propeller, and other principal points, that comparisons can readily be made. There will also be given the estimate of the weight of cogines; boilers, water, bunkers, appendages, tools, and spars work, in tour of 2,240 pounds.

The terms of payment will be that when one-fourth of the materials and labor provided for in the contract shall have been completed to the satisfaction of the department, there will be made a payment of one-fifth; which amount of the contract; when one-half the work shall in the manner be completed, there will be a further payment of one-fifth; when three-fourths the work shall have been completed, and have made a statisfactory trial of one week, then a further payment of one-fifth; and when the ship shall have performed satisfactority at sea for a period of three mounts, then the returning sum shall be paid.

The repairs necessary during this period from defective workman-ship or materials will be at the expense of the contractor.

The proposals must be explicit, and no qualified or conditional offer will be considered.

[No. 486.] By the President of the United States.

In pursuance of law, I, JAMES BUCHANAN President of the United States of America, do bereby declarand make known that public sales will be held at the undermentioned and offices in the State of Mesouri, at the periods hereinafter design i office at PLATISBURG, commencing on Monday, the first next, for the disposal of the public lands within the fol

COMPLETION of Panama Railroad.—Reduction of fare to California.—United States mail steamships leave Nev ork for Aspinwall on the 5th and 20th of each month, connecting

York for Aspinwall on the 5th and 20th of each month, connecting with mail steamers from Fanama to San Francisco.

These steamships have been inspected and approved by the Navy Department, and guaranty speed and safely.

The Panama railread (47 miles long) is now completed from ocean to ocean, and is crossed in 3 of 4 hours. The baggage of passengers are checked in New York through to San Francisco, and passengers are embarked at Fanama by steamer at the company's expense. The money paid in New York covers all expenses of the trip.

Reserve steamers are kept in port in New York, Panama, and San Francisco, to prevent detection in case of accident, so that the route is entirely reliable.

Passengers leave Panama the same day they arrive at Aspinwall. Conductors go through by each steamer, and take charge of women and children without other protectors.

For through tickets at the lowest rates apply at the agency, 177 West street, New York, to

S. C. Herring & Co.'s Patent Champion Safes. THE subscribers, grateful for past favors, and finding that a discriminating public were bestowing their patronage to that extent that more warerooms were necessary to exhibit all their stock, have enlarged their depot, by opening an extensive ware and salesroom on Broadway, at No. 251, corner of Murray street, opposite the Gity Hall. This enlargement of warebouser room, with the recent extensive culargement of their factory, will enable the subscribers to keep on hand at all times a larger stock of fire and burglar-proof asfest than any other establishment in the world. Particular attention will be had to constructing asfes for private families to match with other furniture, for the security of plate and jewelry.

George C. Thomas, Commissioner of Deeds for all the States,

Seventh street, No. 490.

United States Navat Court of Equity.

Washington, February 26, 1857.

THE judge advocate gives notice, for the information of parties coming before the court under the 1st section of the act of Juniary 18, 1857, that they will respectively be advised by the department when their cases shall have been referred in the court; and that it is desirable that in presenting themselved they should come prepared with a list of such witnesses as they may desire to have summoned, specifying to which of the respective heads of "fitness for the naval service," mentioned in the act their testimony is to be applied respectively; and suggesting the delay, if any, which may be required; and in respect of what witnesses.

J. M. CARLISLE, Judge Advocate.
